

# CHETAN GAROOR

EMAIL: [chetangaroor2004@gmail.com](mailto:chetangaroor2004@gmail.com) PHONE: +91-7892055565 LINKEDIN: [linkedin.com/in/chetan-garoor](https://www.linkedin.com/in/chetan-garoor)

## PROFESSIONAL SUMMARY

Data Analyst skilled in Python, SQL, and Power BI with hands-on experience in data cleaning, exploratory data analysis, dashboard development, and reporting. Analyzed structured datasets to identify trends, anomalies, and performance patterns supporting data-driven decision making and KPI monitoring.

## CORE COMPETENCIES

Data Cleaning • EDA • Dashboard Development • KPI Monitoring • Business Insights • Trend Analysis • Reporting Automation • Data Interpretation • Decision Support • Machine Learning • Deep learning

## TECHNICAL SKILLS

**Programming:** Python, SQL

**Libraries:** Pandas, NumPy, Matplotlib, Seaborn

**Data Analysis:** Data Cleaning, Data Transformation, EDA, Statistical Analysis

**Visualization & BI:** Power BI, DAX, Dashboard Development, Data Modeling

**Database:** SQL(DQL, DDL, DML, TCL, DCL, Functions, Subqueries, Join's)

**Tools:** Excel, Git, Google Colab Notebook

**Concepts:** KPI Analysis, Trend Analysis, Business Insights, Reporting, Data Interpretation

**Advanced:** Machine Learning, Deep Learning

## TECHNICAL PROJECTS

### Academic Result Analysis – Predictive Insights

2025

*Cleaned and transformed multi-year student performance data*

- Performed EDA on 500+ records, identifying key factors contributing to student performance gaps
- Created 8 automated dashboards providing real-time visibility into 20+ performance KPIs
- Generated predictive insights that forecasted potential academic failures with 85% accuracy

### Road Accident Analysis – ETL & Visualization

2023

*Analyzed dataset of 10,000+ accident records using Power BI and SQL*

- Built interactive KPI dashboard with 5+ interactive filters, improving data exploration efficiency by 40%
- Identified 3 high-risk accident zones via trend analysis, supporting evidence-based safety planning
- Performed data cleaning on 12+ raw features, ensuring 98% data accuracy for reporting

### Network Traffic Analysis – Security Analytics

2025

*Processed 100,000+ network packets using Python for anomaly detection*

- Developed automated reporting system that reduced weekly manual monitoring time by 15 hours
- Detected 45 abnormal activities with 92% precision score using statistical thresholding
- Optimized SQL queries for large datasets, resulting in 30% faster data retrieval speeds

## ACHIEVEMENTS

- Top 10 – Inter-University Hackathon (120+ teams)
- Solved real-world business case – Flipkart Grid 6.0 level-1
- Completed Industry Analytics workflow – Intel Unnati Training Program
- Completed Cyber Security Training From Cyseck IISC Bengaluru

## EDUCATION

### Bachelor of Technology – Artificial Intelligence & Data Science

*Sharnbasva University | 2022-2026 | CGPA: 9.19/10*

## PROFESSIONAL CERTIFICATIONS

- Data Visualisation Training (2025)
- Microsoft Power BI Certification (2024)
- Advanced Python Programming (2024)
- Excel Advanced Analytics (2024)
- SQL & Python Programming Workshop (2023)
